**Provide a title for your proposal that is no more than 80 characters including spaces.:** A Rapid Review of Slipped Capital Femoral Epiphysis (SCFE)

**Describe the problem, or gap in practice or knowledge you are addressing; and what the learner can expect to take away from this education.:** The differential diagnosis of hip and knee pain in the pediatric age group is very broad. SCFE is one diagnosis that can never be ignored and must be ruled out in all pediatric patients present with vague pain in the lower extremity with or without a limp.

**Provide a description regarding how this education has a direct bearing on patient care, or how it supports the physician's role in patient care, or how it has a direct bearing on a physician's ability to deliver patient care.:** The physician after attending this presentation will be able to diagnose SCFE and several other potential causes of hip pain in the pediatric population. They will also understand the treatment and then create a rehabilitation program after orthopedic surgical intervention.

**Select all that apply.:** Initial Diagnosis, Treatment/Management, Patient Education, Care Coordination, Other

**Objective 1::** Participants will be able to understand and define SCFE.

**Objective 2::** Participants will understand how to use radiography to make the diagnosis.

**Objective 3::** Participants will know both acute and long-term care of children with SCFE.

**Objective 4::** Participants will be able to design a rehabilitation protocol for the post-surgical

SCFE patient to return to activity.

**Objective 5::** Participants will understand and know how to watch for contralateral SCFE, and other complications of SCFE post-surgical repair.

**Practice Change 1:** More confidence in the diagnosis and treatment of pediatric patients that present with lower extremity pain.

**Practice Change 2:** Potentially decrease the need for more expensive tests and imaging for lower extremity pain in pediatric patients.

**Practice Change 3:** Be able to help with patient progress in rehabilitation post-surgery.

**Please select all that apply with respect to your proposal.:** Interpersonal and communication skills, Medical knowledge, Patient Care, Practice-based learning and improvement, Systems-based practice

**Does your proposal include osteopathic medicine principles?:** Yes

**Please select format::** Didactic Presentation - 60 min
