

Resident and Student Leadership Committee Report

The Student and Resident Recruitment Committee met three times over the past year via conference call. Discussions have also been had individually between the LAFP Staff and the residency programs as well as the departments of family medicine. Among the relevant topics addressed several ways in which to reach students and residents at our meetings and other venues. The following are the highlights that the Committee worked on this past year:

Retention of Resident Members to New Physician Members

An area of focus for 2020 – 2021 will be building a strong connection with our resident members. We hope our efforts will increase the retention of transitioning from a resident member to an active member. Plans include focused communications specific to program year and promoting the benefits of LAFP/AAFP membership.

LAFP 2019 Annual Assembly Resident Student Track

The 2019 Resident and Student Track and Annual Poster Competition was held in conjunction with the 72nd Annual Assembly. The poster submissions were displayed in the CME room on Thursday and Friday. Over 70 students and residents were in attendance. The agenda included full day of educational lectures and procedural workshops. The track concluded with a Member Dessert Social where the winners of the poster competition were announced.

LAFP White Coat Day – Postponed
